

UNIVERSITY RANKINGS

FACULTY

Strong professors inspire, as well as instruct, their students, and they have to balance two important roles: teaching and research. In assessing the calibre of faculty, *Maclean's* looks at the success of full-time professors at winning national awards from more than 40 awards programs. In addition, *Maclean's* examines the success of faculty in securing peer-adjudicated research grants from each of the three major federal granting agencies.
