Presentation of material from the textbook (50%)

Class participation during presentations (20%)
Everyone must read the material to be presented the next week
The mark is based on questions you will ask the presenter as well as answers you will provide to questions from the instructor.

Project (30%)
Select 3 recent papers, published after August 2012, in either one of the two journals:
Natural Computing
International Journal of Unconventional Computing

Both journals are available online through the Queen’s Library web site.
The papers you select must be approved by the instructor.
Papers by the instructor do not qualify.

Submit a 10-page report (12pt. 1in. margins)
Summary + critique (strengths, weaknesses, comparisons, improvements, etc.) of the 3 papers
Report must be submitted (at the latest) at the beginning of the last lecture (9:00, November 26)

Present your project in class.
