

CISC / CMPE 327: Software Quality Assurance
 Fall 2018
Project Peer Evaluation

Under the terms of Assignment 0, a portion of your individual project mark is influenced by peer evaluations by all members of a group. Please note that there is no direct numerical correspondence between the responses and your mark, and that while (as indicated in A0) up to 49% of your individual project mark may be based on these evaluations, the percentage in many cases may be much lower.

Rate each member according to their contribution to different aspects of the project on a 1 to 5 scale (where 1 is the least contribution, and 5 is the greatest).

- "Group management": organizing work; resolving conflicts
- "Design and architecture": Front End and Back Office design; script design
- "Testing and coding": writing, reviewing and maintaining test cases, code and scripts
- "Reports": writing and editing PDF reports

In addition, estimate the percentage of total team effort that you feel each person contributed.

Please be honest in your evaluation. Explanations are welcome, on the second page.

Turn in this peer evaluation via onQ by **10pm, Friday, December 7th**, as a Word document (.docx) or a PDF.

Team Member 1 (YOU)

Your name:

	contributed less			contributed more
	1	2	3	4	5
Group management	1	2	3	4	5
Design and architecture	1	2	3	4	5
Testing and coding	1	2	3	4	5
Reports	1	2	3	4	5
Percentage of overall team effort	%				

Team Member 2

Name:

	contributed less			contributed more
	1	2	3	4	5
Group management	1	2	3	4	5
Design and architecture	1	2	3	4	5
Testing and coding	1	2	3	4	5
Reports	1	2	3	4	5
Percentage of overall team effort	%				

If your group had 3 or 4 members, continue your ratings on the next page.

Team Member 3

Name:

	contributed less	contributed more
Group management	1	2	3	4	5	
Design and architecture	1	2	3	4	5	
Testing and coding	1	2	3	4	5	
Reports	1	2	3	4	5	
Percentage of overall team effort						%

Team Member 4

Name:

	contributed less	contributed more
Group management	1	2	3	4	5	
Design and architecture	1	2	3	4	5	
Testing and coding	1	2	3	4	5	
Reports	1	2	3	4	5	
Percentage of overall team effort						%
